

STS010 Rotary Suspension Unit

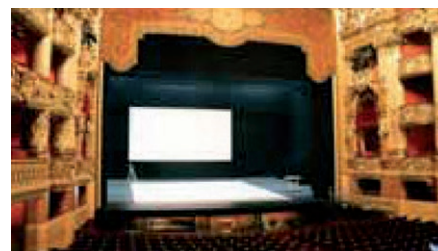

DESCRIPTION

The STS010 Rotary Suspension unit is a unique and world class system that allows the configure of the stage leg curtains to any angle.

This system gives the versatility and option to change the stage set from theatrical performances to a lecture theatre black box setup quickly and easily.

FEATURES

- Robust and reliable
- No need for ladders to change orientation
- Single cable locking system
- User friendly
- Silent movement
- Working load limit of 150KG

“Specialty Theatre have designed and manufactured quality theatre equipment since 1969. Our products are installed in 38 countries around the world”
