

Specialty Theatre 290GSM IFR Velvets

LOOKING FOR THE PERFECT CURTAINS TO ENHANCE THE AMBIENCE OF YOUR THEATRE?

Velvet curtains are the perfect choice! Our medium weight IFR brushed polyester velour, with a weight of 290 GSM, is made of 100% polyester and is totally opaque, durable, and wrinkle-resistant, making it ideal for front of house, stage, wings, side, and rear curtains.

Fire-resistant curtains are a must-have for any theatre, and our velvet curtains are inherently flame-resistant (IFR), ensuring the safety of your audience and performers. Additionally, the wrinkle-resistant feature makes this fabric wonderful for schools that want to remove the curtains as well as rental and touring shows as well.

Our velvet curtains are easy to care for. Simply wash them in cold water, without bleach, and tumble dry on a synthetic setting. For best results, wash dark colours separately.

With their luxurious texture and superior quality, our velvet curtains are perfect for creating a sophisticated and elegant look in any theatre.

Contact us today to learn more about our velvet curtains and how they can enhance the ambience of your theatre!

“Specialty Theatre have designed and manufactured quality theatre equipment since 1969. Our products are installed in 38 countries around the world”
